58	♥ A Day of Work by Forest Savers	Clearing logging debris, invasive or unwanted brush from woodlands, field edges, or around homes as long as it is not too rocky, steep, or wet (neighbors can combine work) within 30 miles of Woodstock, Vermont. The unique Forest Savers machine is very fast and efficient. For example, a homeowner and a hired man spent 80 man hours clearing invasive, thorny brush along one edge of a large lawn leaving them with bloody arms, stumps, and huge piles of brush. They then had Forest Savers come do an equivalent amount of clearing in only 1.5 hours leaving them with a neatly cleared 20' x 400' strip between the woods and lawn with no stumps, no brush piles, and attractive, woody mulch along a smooth lawn perimeter. Attached are before and after photos of woods cleanup done at Shelburne Farms this August along with a photo of one of Forest Savers machines. (http://www.forest-savers.com/)	#####	Gerry Hawkes (17 Bidders-donated A Day of Work to BBC)	\$3,000
